

# BREAS MARKETING BULLETIN

## Z1® CPAP, Z1® Auto and PowerShell® enhancements

We are pleased to introduce further enhancements for the Z1® portable CPAP and APAP devices and the optional integrated battery PowerShell®. The changes are the following.

- **Data Viewer**, has been upgraded to address several bugs that were found in the functioning of the previous data viewing program. Here are the areas we fixed: synchronization with the device, leak count, treatment time, clear functions, settings, AHI and pressure. In addition, the ability to create and share a pdf of a report has been included and as well as the Japanese language. The new version 2.1.6 is available at <http://shop.breas.com/documents-and-downloads/>

- The **Carry bag** is available now for a trial evaluation of customers feedback. This is a zippered, molded soft sided case that protects the Z1® and its accessories during transportation.

Product name: Z1 Carry bag soft side

Article number: 006641

Prices: 409 (SEK) - 45 (EUR) - 37 (GBP)

We thank you for using the Z1®. For further questions, please contact your local Breas representative or Breas Technical Support at [techsupport@breas.com](mailto:techsupport@breas.com).
